

The Marathon School District Endowment Foundation has teamed up with the R Store to raise money for the foundation. When patrons use this specially marked pump to purchase gas, \$ .02 per gallon will be donated to the Marathon School District Endowment Fund. The Endowment Fund has given over tens of thousands of dollars in scholarships (to support our college-bound students) and in grants (to support the innovative ideas coming from staff members at each of the district's schools. Grants have been awarded for projects ranging from learning new Early Childhood educational techniques to accessing iPad technology. These efforts are helping expand and strengthen learning in our Marathon School District which includes St. Mary's School and to better serve all our students so they can be successful in school.

Thank you to the R Store and Marathon School District Endowment Foundation for making a difference in our schools.
